

56061-56160 TURN BUTTON PRIVACY SET

TOOLS REQUIRED:						
Drill	Drill Bit: 8mm	Screwdrivers:	25mm Chisel	Pencil	Ruler	Hammer
	Spade Bit: 19mm & 24mm	Flat and Phillips				

FITTING INSTRUCTIONS:

NEW DOOR PREPERATION:

- 1. Always check that your template is the correct one for your lock and check that it is printed to scale with a ruler.
- 2. Make a centre line on the edge of your door at the desired height.
- 3. Line up the centre of the template with your centre line on door edge.
- 4. Drill the Privacy Bolt hole 24mm diameter to a depth of 80mm
- 5. Insert the Privacy Bolt into the hole and scribe around the face plate. Neatly Chisel out the scribed area to the thickness of the face plate (the face plate must sit flush with the door edge.)
- 6. Remove the lock from the door and line up the template on the face of the door.
- 7. Drill a 19mm hole for the spindle and 8mm hole for fixing posts to go through the door.
 - ! Drill holes from both sides of the door to prevent door blowout.

INSTALLATION OF PRIVACY BOLT:

- 8. Replace the Privacy Bolt into the door and secure with 2 of the screws provided.
- 9. Remove Escutcheon Plates
 - ! Unscrew Round Escutcheon Plates by hand.
 - ! Remove Square Escutcheon Plates using 2mm Allen Key provided.
- 10. Install Fixing Posts to External Escutcheon using Flat Screwdriver to tighten.
- 11. Cut spindle to suit door width.
 - ! Calculation = Door width + 25mm
- 12. Insert Spindle into turn knob and tighten Turn Knob grub screw to secure the spindle using 1.5m Allen Key provided.
- 13. Insert Spindle and Install Escutcheons to door using fixing screws. Test Operation.
- 14. Re-Install Escutcheon Plates
 - ! Screw Round Escutcheon Plates by hand.
 - ! Install Square Escutcheon Plates using 2mm Allen Key provided.

INSTALLATION OF STRIKE PLATE

- 15. Transfer the height line of the Privacy Bolt onto the door frame and align with centre of template.
- 16. Mark and Drill 19mm hole at centre of Door Jamb to a depth of 15mm.
- 17. Position Strike Plate and scribe around. Neatly Chisel out the scribed area to the thickness of the strike plate (the strike plate must sit flush with the door edge.)
- 18. Replace the strike plate onto the door jamb and secure with 2 of the screws provided. Test Operation.
